

PUBLIC COMMENT PERIOD:

July 15 – August 17, 2009
Proposed Site Cleanup at
UNIVAR USA, INC. - Kent, WA
The Washington State Department
of Ecology (Ecology) invites the
public to read and comment on
draft contaminated site cleanup
documents for the Univar USA
Inc. (Univar) facility located in
Kent, Washington at 8201 South
212th Street. Ecology has begun a
30 day public comment period on
the cleanup documents.

Univar, a chemical packaging
and distribution company, is
undergoing environmental
investigation and site cleanup
under a plan proposed by Ecology
and the property's owner. The
11 acre site contains soil and
groundwater contaminated
with organic chemicals and
chlorinated compounds from
past operations. The nature and
extent of contamination has been
studied, various cleanup options
evaluated, and a cleanup plan is
proposed. A state environmental
policy act checklist has also
been submitted. Ecology seeks
to finalize the documents and
implement the preferred cleanup
activities.

Ecology seeks the public's
comments on these documents
between **July 15 and August 17,
2009**. To be considered, comments
must be postmarked or received,
by email or hand delivery, by
